#### 4 MILLION PEOPLE MAY FLEE UKRAINE BE ACCORDING TO UNCHR DAY 7 OF WAR IN UKRAINE

They are in need of protection and support. As the situation continues to unfold, an estimated 4 million people may flee Ukraine in the coming weeks and months. In light of the emergency and paramount humanitarian needs of refugees from Ukraine, an inter-agency regional refugee response is being carried out, in support of refugee-hosting countries' efforts. The regional refugee response plan brings together UN, NGO and other relevant partners and primarily focuses on supporting the host country governments to ensure safe access to territory for refugees and third-country nationals fleeing from Ukraine, in line with international standards. It also focuses on the provision of critical protection services and humanitarian assistance, while displacement dynamics and needs continue to grow exponentially. Source: UNHCR

On the European side, the European commissioner in charge of crisis management, Janez Lenarcic, estimates that "seven million Ukrainians will be displaced" in this country because of the Russian offensive. "We are witnessing what could become the biggest humanitarian crisis on our European continent for many, many years."
